

Field Day

Please join Ag Ventures Alliance on September 12, 2019 to get an inside look on growing ag technology and equipment. We will have five companies showcasing their products. Our field day will take place at Jenison-Meacham Memorial Art Center (1179 Taylor Ave. Belmond, IA) from 1:00 - 5:00 p.m. This event is free and refreshments will be provided so please RSVP by email at agva@agventuresalliance.com or by phone at 641-494-2368. Our companies will be showcased in the following order:

Smart Ag uses technology to create autonomous equipment in which farmers can operate faster with less labor.

AgriSync offers communication between advisors and farmers through an app which can educate, problem solve and track data for everyday farm work.

Environmental Tillage Systems is the leading manufacturer of conservation tillage and nutrient management equipment. They design equipment made for enhancing soil productivity and farm profitability.

EarthSense is opening the door of new possibilities for crop breeders, plant health product developers, crop scientists and field agronomists. Their autonomous robot is able to collect field data that can measure a number of customizable key traits.

Rantizo has taken the technology of drones to new heights. They have developed a drone that uses an electrostatic sprayer mounted to a drone. This provides better coverage using less chemicals.
